

Addendum No. 1

This addendum forms an integral part of the Contract Documents and shall be included therein. This addendum shall be read in conjunction with the Drawings and Specifications. This addendum consists of 2 pages.

Date: October 27, 2026

Number: RFT 2026-011

Project: Town of Watson Lake – Wye Lake Trail and Sign Post Forest Trail Improvements

Clarifications or Answers to Questions:

1. QUESTION #1

- a. Question: I would like to request a one-week extension to closing as we are still waiting for pricing from suppliers on some of the various fixtures.
- b. Response: The tender closing date will be extended by one week. The new closing time is **2:00 p.m., local time, November 5, 2026.**

2. QUESTION #2

- a. Question: On release of pending addendum to questions and to conclude subs pricing would you be able to extend the bid close to Tuesday next week?
- b. Response: Refer to Response #1.

3. QUESTION #3

- a. Question: Please confirm if a bid bond is required and that the project contract security is 10% of the bid price not the typical 50/50 Performance and Labour?
- b. Response: Contract security to be provided in the amount of 10% of the Contract Price as per Section 6 of the Bid Form.

4. QUESTION #4

- a. Question: Please confirm that electronic (e-bonds) are accepted?
- b. Response: Refer to response #3.

5. QUESTION #5

- a. Question: Ref work adjacent to Wye Lake and placement of rip rap on shoreline. Is there any data for the depth of water to assist with the selection of turbidity curtain and are there any environmental requirements or constraints for the maximum length of shoreline to be worked at any one time.
- b. Response: Water depth ranges from 1 to 5 metres. There is no maximum limit of shoreline to be worked at one time. The contractor can determine the length of turbidity curtain and work areas along the shoreline.

6. QUESTION #6

- a. Question: Is the contractor to provide environmental management and water turbidity monitoring/testing pre, during and post work?
- b. Response: Environmental monitoring is only required during the work.

7. QUESTION #7

- a. Question: On review of the furniture drawings I noticed the drawing for the HBII container does not reconcile with the description. The description calls for a recycling hood on the RH side of the container which should look like this below. Please can you clarify which option is preferred for pricing purposes? It is possible to leave the container all green except for the door and/or the restrictor plate or have it segregated.
- b. Response: Garbage/Recycling Bin to be Haul-All Hid-A-Bag II (HBII) with Recycling Hood to right side. Unit can be single colour only (all Neufeldt Green).

8. QUESTION #8

- a. Question: Can the Town provide any temporary staging area for lumber and miscellaneous fixtures before installation.
- b. Response: The Town can provide lay down space at the worksite locations. The contractor would be responsible for fencing, and the Town would not accept the risk of loss if it occurred.
